

## Seeking Qualified Expertise to Serve on Review Panels

One of the goals of the Leadership Team for Project # 1 of the EERE/NASULGC partnership (Expanded Opportunities for Cooperation and Communication) is to assist you in identifying and collecting names of individuals located at NASULGC institutions who have the expertise needed to serve on peer-review panels or other panels in your programmatic area. The intent is to provide a list of potential individuals from which you can select your review team. In order for NASULGC to contact its member institutions, we need to share with them the information on our needs. Please fill out the form below and send it back to Sam Baldwin or myself.
